## **DETAILED ACTION**

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The reference to Bonnet et al (US 2004/0086721) is not deemed to anticipate the instant claims since the components do not provide for the ranges recited, nor teach in the direction of those ranges. As such, while there may be overlap in the amounts of the poly methyl methacrylate and elastomer inclusion of the impact copolymer, and there may be overlap of PVDF at 30 to 40% by weight of the composition, the reference, considered, as a whole teaches away from the compositional limitations set forth. Since there are no other outstanding issues with regard to the clarity or enablement of the claims, these claims are deemed to contain allowable subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

This application is in condition for allowance except for the following formal matters:

Claims 30-34 and 36-38 must be cancelled. These claims, drawn to composites (claims 30-34), laminated materials (claim 36), and a process to produce a composite molding (claims 37 and 38) were non-elected with traverse in the response filed 4 June 2009.

Art Unit: 1796

Applicants are entitled to only a product, a process of making that product and/or a process of using that product. As such, the subject matter of claims 30-34 and 36-38 does not meet the criteria, and must be cancelled.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
